

TEST FOR CLEAN AND GREEN  
Organizational Strategies Sharon Sarles 2013

1. Why is it so important to keep everything so clean?
  - a. Business objective to keep things looking and smelling good.
  - b. Licensing has strict standards.
  - c. Accreditation has even stricter standards
  - d. We need to keep the children healthy, especially in a group setting.
  - e. All of the above.
2. What is one of the first tasks to learn as an employee in a CDC?
  - a. How to use the phone without the Director seeing.
  - b. How to do lesson planning.
  - c. How to clean tables and help children wash their hands.
  - d. How to ride a bike.
3. What are the benefits of hand-washing?
  - a. Preventing the spread of disease
  - b. Preventing getting sick
  - c. Preventing being dirty, or spreading sand to food or vice versa.
  - d. All of the above.
4. When are children required to wash their hands?
5. This question has been removed because of the political situation that happened around a particular infection years after this course was constructed. Everyone gets credit. There are no vaccines for flus. There are many kinds of flus. It is always a good idea to wash hands and keep overall health up.
6. What is the procedure for hand-washing?
7. What do you do with a toy that a baby has tasted or chewed on?
8. What is the limitation of bleach?
  - a. It doesn't work on all surfaces.
  - b. It is toxic: it should not be swallowed and it is not good to breath
  - c. It doesn't kill germs
  - d. It is only now being discovered.
